How those colors help the movie to tell the story?	Kate Torgovnick May (2017), classify in four the ways that color can operate inside a movie:	To Simplify complex story's When we are in front of a complicated story, either with temporal or spatial jumps, the color could be our best ally because it will help the audience not lose the thread of the history and know where they are in every
	To transmit emotions	moment. A typical resource would be the use of flashbacks and the filmmaker's decision to change the color of those (for example, to black and white); This will relocate the viewer quickly
